

FEEDBACK ON STUDENT SCI-TECH FAIR PROJECTS

**The Children's Museum Annual Science & Technology Fair
311 Main Street, Utica, NY 13501 www.museum4kids.net**

We were pleased to once again host over 30 student entries into our Annual Science & Technology Fair. Following, for the use of students/teachers/parents for another year, is the judges feedback:

- 1. Make sure your project is an original approach to the problem or topic**
- 2. Make sure the project is primarily the work of the student**
- 3. The student should not have props or information in the exhibit which they don't understand**
- 4. The display should be no wider than 3 feet**
- 5. The display should contain the students name, age, and name of school**
- 6. The information on the exhibit display should be visually attractive, with accurate information & correct spelling**
- 7. The student should demonstrate a good understanding of the topic chosen**
- 8. When asked by the judges, the student should be able to defend the results and conclusions of his/her exhibit/topic**
- 9. The student should also be able to explain why they chose this project**
- 10. The student should also be able to tell what they learned from doing the project**
- 11. The student should also be able to explain what source(s) he/she used to obtain information about their project**
- 12. The student should be able to explain whether the results or conclusions surprised them or not, and why**
