

# Space

Have you ever looked up, way up high, trying to see past the sky?  
But all you could see was blue and white stretching over the land.  
Then, one night you had a dream about just one wonderful thing.  
You dreamt you were an astronaut, actually flying in space.  
You flew straight up. Up past the sky.  
It felt like you could actually fly.  
You landed on the moon, collected some moon rocks.  
You really had a blast, but then before you wake, you said:  
"I wish this moment would last."  
When you wake up, all you had to say was:  
"I'm going to be an astronaut someday!"
